Welcome to the Women to Women Healthcare Center

We are pleased to be participating with you on your journey to good health. Our goal is to share with you our expertise in providing comprehensive and advanced "women to women" care for your total health and wellbeing.

The health inventory form will assist your provider in learning about who you are and what your current concerns may be.

Please include the following:

1. A brief note explaining your concerns.
2. A copy of any recent blood work, Pap smear reports, pathology, x-ray or ultrasound reports.
3. A copy of any recent notes from your medical caregiver.

Please do not include any records more than two years old or x-ray films.

At Women to Women, we allow ample time to address your needs. Your initial visit could typically last from one to two hours, with time spent with your practitioner, nurse and our patient educator. The charge generally ranges from \$250 to \$450, plus fees for any lab work. Outside laboratories submit their own bills for processing the tests that we forward to them, including Pap smear readings, blood work and cultures.

Please extend to us the courtesy of calling two business days in advance if you need to change your appointment. Our office maintains a waiting list for these cancellations. The \$50 cancellation fee is waived for those patients who call two business days prior to their visit.

Directions to Women to Women are easily located on our website at: <http://www.womentowomen.com/clinic>

We look forward to meeting you!
